

YEAR 5 CLASS CAS PROJECT WITH MWS CRISTALITE STUDENT CARE CENTRE

Methodist Welfare Services (MWS) Christalite Student Care Centre provides community-based care for families needing daytime support. To expand the horizons of primary school children, my classmates and I developed two weekly programmes from May to June 2024.

Our "A Day in the Life of..." series explored diverse global careers, aiming to broaden children's perspectives of the various vocations. Additionally, we introduced the three main sciences and their real-world applications to spark their curiosity. Witnessing their enthusiasm and learning affirmed the importance of positive role models in child development.
