

Year 5 Class CAS Project: Collaboration with My Little Gems Preschool

My Little Gems Preschool's emphasis on a well-rounded curriculum and character development resonated with our desire to offer value-based activities to children. This shared vision laid the foundation for a successful and enriching partnership.

Throughout June 2024, our team took turns engaging the children with a variety of thoughtfully chosen activities including board games, origami, cultural presentations, song and dance and beginner golf. These activities enriched their curriculum, fostering sportsmanship, patience, creativity, and intercultural understanding.

Each class segment was meticulously planned and executed collaboratively, fostering a sense of ownership among the team members. This teamwork experience underscored the importance of collaboration, communication, and quick problem-solving to deliver impactful experiences for the children.
