

## Service-Learning Trip to Cambodia

From January 15th to 20th, 40 Year 4 boys from the 2023 Integrated Programme embarked on an Overseas Values-in-Action (OVIA) service-learning trip to Baray, Cambodia. Taking inspiration from the CAS component (Creativity, Activity, Service), they beautified Kreul High School with vibrant murals. They further demonstrated their commitment to the community by building well pavements and providing educational workshops on English language and hygiene for the local children.

Immersing themselves in the vibrant Cambodian culture broadened their perspectives. Distributing charity packs and interacting with Cambodian youths offered not just insights, but also a heartwarming connection to their daily lives and challenges. An agricultural tour and noodle-making workshop showcased unique aspects of Cambodian culture, rarely seen in Singapore.

Memories etched and hearts touched, the trip fostered respect and appreciation for Cambodians and diverse cultures. It was a profound experience that enriched both the students and their Cambodian counterparts.
